

The Republic for the United States of America is the lawful interim government for the American people; a government in waiting, parallel to the U.S. Corporation.

The *de jure* Republic for the United States of America is reaching out to the American People to let them know about their Republic. America needs to understand how we lost our American Republic and the benefits of having it restored.

The Republic itself is the ultimate remedy for the American people. Americans deserve our lawful representative republican form of governance back. Working together we can ensure a peaceful transition to a government that once again serves and represents the American People. Ask what you can do to help rebuild our American Dream of Liberty and Justice for All at

## Republic For the United States of America

*"...cunning, ambitious, and unprincipled men will be able to subvert the Power of the People and to usurp for themselves the reins of Government; destroying afterwards the very engines which have lifted them to unjust dominion...The spirit of encroachment tends to consolidate the powers of all departments in one, and thus to create, whatever the form of government, a real despotism..."*

-- George Washington, Farewell Address, 1796

It has been over 225 years since President Washington delivered the above farewell address to the American People warning in plain language of abusive People behind the scenes who would eventually try to destroy our representative constitutional Republic. It has been a long drawn out process to get us to where we are today in America. Today, it is clear that our lawful Republican form of governance has been slowly and deceptively abandoned in favor of the despotism that George Washington warned of in his farewell address.

Americans are discovering how the Federal Government has caused harm, both to themselves and Nations around the world. **Our Mission is to restore righteous lawful government to the American People.** Our goal is to stabilize America and its economy, with the intent of freeing the American People and People around the world from the "*cunning, ambitious, and unprincipled men*" that George Washington warned us about. The rule of law should be applied equally to all mankind, requiring justice for the innocent as well as for those proven guilty of atrocities that have been committed in the name of the American People. George Washington stated in the same Farwell address: "*Real Patriots, who may resist the intrigues...are liable to become suspected and odious; while its tools and dupes usurp the applause and confidence of the People to surrender their interests.*" In other words, the very Americans who become aware that something is wrong and take actions to correct the abuse of power become the very ones vilified by the media. So, it is today that many Americans refuse to believe the truth or they dare not speak about the truth because they are fearful. Not all Americans are aware of the TRUTH about our Nation and the out of control U.S. Corporation that is controlling our lives.

For now, it is your mothers, fathers, grandmothers, grandfathers, your brothers and sisters and children of the People around this country that are the lifeblood of this Republic. Despite all the oppression, the American People will prevail in restoring our original representative republic.

# Republic for the United States of America

**The American people have a choice between two provisional (interim) governments:**

**One, has re-inhabited the original *de jure* United States of America Representative Republic that was controlled by “We the People.”** The government had very little authority since the power was in the hands of the People. The original Constitution was never removed; it has simply been dormant since about 1871. It is still intact to this day.

**The other is the *de facto*; the corporate UNITED STATES.** During the years around 1871 the original United States of America Republic was usurped by banking interests and others to create a separate and different government, a corporation (the UNITED STATES corporation), that acts as our current government. The UNITED STATES corporation operates under Corporate/Commercial Law rather than Common/Private Law. The UNITED STATES Corporation placed our Constitution and the American people underneath itself, which explains why Congressmen and Senators no longer answer to the American People. They are following corporate laws that completely strip Americans of their God given unalienable rights.

Republic leadership urges all Americans to pray for and encourage President Trump, as he works towards returning governance back to the American people. Republic officials also need your support and encouragement to do the same. May God bless our efforts to return a republican form of governance back to the American people!

**What the Republic for the United States of America (the Republic) is NOT:**

1. The Republic is not part of or associated with sovereign groups or movements.
2. The Republic is not part of or associated with militia groups or movements.
3. The Republic is not part of or associated with nation state groups or movements.
4. The Republic is not part of any groups or movements that promote violence of any kind.
5. The Republic is not part of the UNITED STATES municipal corporation, its agents, or any of its sub-corporations either directly or indirectly. This includes any of the political parties.

**What the Republic for the United State of America is and what it stands for:**

1. The Republic is a peaceful, lawful, interim, parallel government for the United States of America.
2. The Republic has peacefully, honorably, and lawfully re-inhabited the Republican form of governance demanded by the Constitution of the United States of America that was vacated in 1871 by unconstitutional acts of Congress.
3. The lawful Congress of the Republic has been meeting in sessions since 2010 as the **provisional interim government**. The goal is to bring the United States of America into a complete Constitutional government within 10 years.
4. The Republic is a peaceful, honorable, and lawful government and uses law as its foundation, not violence.
